School Policy

Digital technologies have become integral to the lives of children and young people, both within Schools and outside School. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Children and young people should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

·that children and young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.

·that School systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

The School will try to ensure that students will have good access to digital technologies to enhance their learning and will, in return, expect the students to be responsible users.

Acceptable Use Policy Agreement

Please read this agreement carefully, and ask your teacher, tutor or other member of staff if there is anything in it you are not sure about. The teachers responsible for Online Safety are Mr Carter and Mrs Price.

This agreement includes School digital equipment and also your own devices in the School e.g. laptops, mobile phones, tablets, digital cameras. Please note that USB devices are strictly forbidden for use in School in any circumstances due to the threat of cybersecurity breaches.

For my own personal safety:

This can be achieved, for example, by using three unconnected words or a combination of letters, numbers and symbols.

- If I arrange to meet people that I have communicated with online, I will do it in a public place and take an adult with me.
- I will immediately report to my tutor, House staff or Head of Year any unpleasant material or messages or anything that makes me feel uncomfortable when I see it online.

*The school will help you to report this to the app or website concerned with a view to removing said material.
Please also report this to IT Support so that they can block any undesirable links.*

- I will not open any hyperlinks in emails or any attachments to emails (as there is a risk of the attachment containing viruses or other harmful programmes):
Unless I know and trust the person or organisation who sent the email
If I have any concerns about the validity of the email

I will act as I expect others to act toward me:
